BEER MADE AT HOME

NEW DISCOVERY REVOLUTIONIZES THE BEER BUSINESS

Cincinnati, O., June 19.—By a new method of concentration a well known brewer of this city has discovered a process whereby real beer in concentrated form can now be furnished. Anyone can now have in their own home a glass of beer whenever wanted at a cost of only one cent a glass. He furnishes the barley malt, hops and other necessary ingredients of beer in the concentrated form so that simply by the addition of water and a little sugar a sparkling, foaming glass of lager beer can be quickly prepared. It is said that this beer is far superior to the regular brewery beer and as a result of this discovery thousands of people all over the country are already making their own beer at home. This new discovery will be welcomed by thousands of people living in dry territory as on account of its concentration it can be delivered quickly and cheaply anywhere by parcel post. No one, whether in field, factory, farm or home needs now to be without their daily glass of refreshing lager beer. Mr. A. S. Shub of 271 Third street, Cincinnati, O., has written a very interesting booklet giving the history and secrets of his process which he is mailing with free trial offer to anyone sending him their name and address.

THE GEM
MATINEE EVERY DAY.

Sunday, June 20.

KING'S RACKET

FRENCH ARMY
DEMAND MORE
HEAVY SHELLS

MORE THAN 300,000,000 CARTRIDGES ARE USED DAILY;
150,000 SHELLS

Paris, June 18.—The French press now is clamoring for more cannon and more ammunition with as much insistence as the English. They take as their text General Castelnau's declaration, "War must be waged not by the shock of men, but by the shock of ammunition."

A year ago the ammunition supplies for the three-inch field gun were only 1,200 shells per gun, with a reserve of 200. It had been increased from 700 per gun in 1905, after General Langlois had declared in the senate that the supply then on hand would be just sufficient for a day and a half of battle. He asked for 3,000 shells per gun. Only 1,400 were granted, provision being made for the manufacture of 13,500 shells a day in the government arsenals.

The first month of war showed that all estimates as to needed ammunition were too low. French arsenals and private factories are now said to be producing 170,000 shells a day. Notwithstanding the continued demands of the press for more ammunition, this is supposed to be sufficient for current needs, besides creating a big reserve stock, careful estimates putting at 100,000 to 150,000 the number of shells now being used each day.

The prodigality of the French army in shells already has been set forth in dispatches. The intensity of the German fire is indicated by an actual count of 20,000 shells fired in an hour and a half upon a French position 350 yards in length and 400 yards in depth in the Bois d'Alle.

It is estimated that more than 200,000 shells were used by the Germans in the actions between April 5 to 12 in the forest of Apremont, while the French, over a limited front near Soissons, in Champagne, fired 100,000 shells of large caliber. The Germans are at present less prodigal with ammunition on the western front, while their artillery is making its great effort against the Russians around Przemysl.

The consumption of small arms ammunition, though there have been no great pitched battles since the battle of the Yser, is also a great problem, due in part to the greatly extended use of machine guns. Sixty of these weapons firing constantly at the rate of 200 cartridges a minute, use more than a million an hour. The number of cartridges used on both fronts from the Carpathians to the North Sea has been estimated at 20,000,000 a day. The equipment of the French army alone, not providing for the reserve ammunition, requires 200,000,000.

Feel languid, weak, run down? Headache? Stomach "off"? A good remedy is Burdock Blood Bitters. Ask your druggist. Price \$1.00.

Phone 567 when in need of anything in the building line. R. W. Long, cor. 1st and Cleveland.

QUEEN OF WAR CRAFT TAKES
THE WATER IN HARBOR

(CONTINUED FROM PAGE ONE)

guns, two on each side, are so placed that they can fire three degrees across the ship's bows, taking the place of bow chasers of the old wooden ship days.

Compared to the Arizona the old battleships of the Oregon class are almost like toys. The new ship could engage a fleet of three of them at the same time, turning upon each as many guns as it could bring to bear and her guns would be bigger and of longer range. In addition she could steam away from them or overtake them at pleasure, developing 21 knots against their 16 or 17. The remarkable thing about the great increase in size and gun power, however, is that each of the smaller ships would need as many or more men than the Arizona which will carry a complement of 915 in her crew.

The new sea fortress as she took the water today cost more than seven million dollars. That was for hull and machinery alone. The guns and armor will cost as much more and other equipment necessary to fit her for duty will add another million to her total cost. She is longer and wider than any but the newest trans-

WILL TELL HOW TO EXTRACT "DOPE" STUFF

Special to Daily Leader.

Stillwater, Okla., June 19.—Walter Stemmmons, editor of the Oklahoma Agricultural & Mechanical college publications, will leave Monday for Madison, Wis., where he will deliver an address on "How to Get Press Material from the Staff," before the annual meeting of the national association of editors of agricultural colleges. Mr. Stemmmons expects to be gone two weeks. He will visit the Iowa State Agricultural College at Ames and the Missouri Agricultural college at Columbia before returning. This meeting promises to be one of the most important of any held so far on account of the impetus given this department of agricultural colleges by the extension work as outlined by the Smith-Lever bill. The college publications are to be the clearing house for extensive information and to meet this situation will be one of the main points discussed at the convention.

For any itchiness of the skin, for skin rashes, chaps, pimples, etc., try Doan's Ointment. 50c at all drug stores.

Sun Gold for Nightbreath, biscuits and pastries.

Have The Leader delivered, the 10c.

STIFFEY MAKES
APPEAL FOR BAND

H. G. Stiffey, chairman of the Chamber of Commerce Music committee, makes the following statement:

Although there may be some criticisms and kickers it is generally believed the mass of the Guthrie people approve and appreciate the efforts of the booster club to help along the welfare of their town. Their motto is "Guthrie First," and a finer bunch of young men who are devoting their time and money to helping their home town cannot be found anywhere. They are ready and willing at all times to boost any good thing for Guthrie. The books are open to all who care to see.

In regard to the band, the members are devoting their time free for two rehearsals, Monday and Thursday evenings at the city hall and the concert Friday evenings and a cordial invitation is extended to all band men to join us. We pay Prof. Ryan \$50 a month, have had to buy our uniforms and music and with proper support will give Guthrie one of the best bands in the west.

Winfield, Kansas, says their director \$50 a month, maestro salary \$10, 45 for collection of list and 45 incidental. Their heat, light and rent do not cost them anything as they have a room of their own in the city building. This makes our band come \$15 to \$20 a month cheaper. They also support juvenile band where the younger boys are taught to play and taken into the larger band when they can play good enough. They also have a Y. M. C. A. building and support a secretary to look after the work where the young men, for a small sum can bowl, read, or swim. Here we feed them and give them a place to sleep and turn them out on the streets to find their own amusement.

Guthrie can be made the musical center of Oklahoma, with our university orchestra, booster concert band and a chorus of 200 voices Guthrie could have a 10-day or at least a week of musical carnival every year and bring special trains and crowds of people from all over the state who would appreciate it; come and spend their money with us and would advertise the town more, with less expense, than anything else we could do.

Don't you know that Lindsay, Kansas, with a population of 2,550 and

one regular train each way, on a branch line of the Missouri Pacific, has a thousand people each year who go to hear the Mesalah rendered? Probably you have spotted 2 days and a \$20 bill when they ran an excursion from here to hear it. We have just as good talent here for such a charge, the best railroad service in the state and we can bring the people here if we make up our mind and are willing to sacrifice a few pleasures to attend rehearsals and put in our best ticks to accomplish it.

At Winfield and Newton, Kansas, they had the Chicago Orchestra, with their quartet of soloists and although the orchestra came high, they made money with it.

A week of music in Guthrie should bring in hundreds of dollars, with proper advertising and it could be done.

This is one of the ideas of the Young Men's Booster Club. Think it over.—R. G. Stiffey, Chairman Music Committee.

Bilious Attacks.

When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach instead of digesting. This inflames the stomach and causes nausea, vomiting and a terrible headache. Take Chamberlain's Tablets. They will tone up your liver, clean out your stomach and you will soon be as well as ever. They only cost a quarter. Obtainable everywhere.

An Old Stock Anecdote.

The czar was recently, coy, intending a soldier and asked him if he would rather have 100 rubles or the Iron Cross.

"Would your majesty deign to tell me the value of the cross?" inquired the private.

"Oh, it is not worth much intrinsically, perhaps two rubles."

"Then, your majesty, I will take the cross and 98 rubles."

This is an interesting episode and the most interesting thing about it is that it also happened during the Franco-Prussian war, the Crimean war the Seven Years war and the Marlborough campaign.

AT THE CHURCHES

First Presbyterian Church, Corner Division and Noble, Sunday School 9:45 a. m. Morning sermon 11 a. m. Junior C. E. 3:30 p. m. Senior C. E. 7:30 p. m. Evening sermon at 8:00 p. m. The pastor will preach at the morning service. In the evening, M. L. Armantrout, who was a commissioner to the general assembly meeting in Rochester, N. Y., last month, will address the congregation on the subject "The General Assembly from a Layman's Standpoint." All are invited to attend the services of this church unless regularly worshipping elsewhere.

Residence 203 E. Noble.

Christian Church, Corner Ash and Noble, Bible School at 9:45 a. m. Junior Christian Endeavor at 11 a. m. Intermediate Christian Endeavor at 7 p. m. Morning subject: "A Man After God's Own Heart." Evening subject: "Misunderstanding Christ." This is Father's Sunday and the men are earnestly invited to attend church services during the day. All are welcome.

GUY H. FINDLY, Minister.

First M. E. Church, Corner Broad and Noble, Sunday School 9:45 a. m. Preaching 11 a. m. Jr. League, 3 p. m. Epworth League 7:00 p. m. Preaching at 8 p. m. (Please see about your "Central.") Official board meeting at close of morning service.

Report to the pastor if you can give a guest lodging from June 22nd to July 1st during summer school of theology.

T. S. PITTINGER, Pastor.

Baptist Church, Corner Vine St. and Noble Ave. Bible school, 9:45. Morning sermon: "Satanic Subtleties." Jr. Y. P. U. 7:00 p. m. Children's Day program at 3 p. m. We shall be pleased to have you worship with us.

R. T. MANSHFIELD, Pastor.

Central M. E. Church, South, Sunday School 9:45 a. m. Sermon at 11 a. m. Subject: "The Woe of Life's Silent Voices." Epworth League 7 p. m. Teacher's council 7:30 p. m. Sermon 8 p. m. (Please see about your "Central" Reader.) You are invited to worship at the little church with the big welcome.

C. K. PROCTOR, Pastor.

Trinity Episcopal Church, Church worship, 11 a. m. and 7:30 Broad and Noble Streets. Rt. Rev. Dr. Brooks, Bishop. Rev. A. B. Nichols, Rector. Third Sunday after Trinity. Holy communion 7:30 a. m. Sunday School 9:45 a. m. Morning prayer and sermon 11 a. m. Vesper service 5 p. m. Subject of morning sermon: "The Cross of Christ."

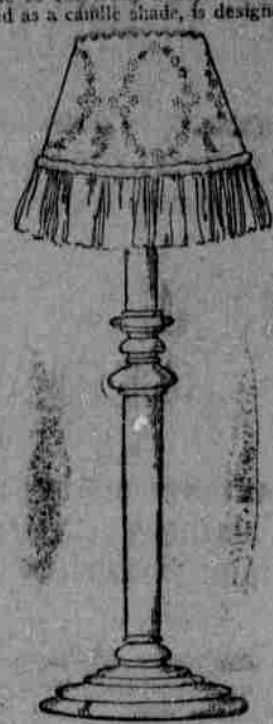

Hints on Embroidery

Ornamental Shades for Lamps and Candles

Everyone has a real appreciation of the beauty of lamp light. Nothing so softens the whole aspect of a room, nothing gives it such a sweet and home-like air, yet we admit that we would not care to be obliged to get along with so dim a gleam for all purposes. Dainty lamp shades in soft tones decorate and beautify our homes even more than any small furnishings that we may use.

Embroidered lamp shades are very much the vogue at the present time, and promise to continue so for many a day. One very ornate shade, which can also be used as a candle shade, is designed in

handsome lamp shade and sprays of embroidery. The wreath is composed of a series of stems with clusters of dots forming a design. The stems are very pretty worked up in French stemming, which is really very easy to do, and will look better done in this way than with the plain outline stitches, as the French stemming gives the pattern a raised effect.

The embroidery pattern illustrated and described herein, together with 400 others covering all possible uses, are included in the "Innovation Embroidery Pattern Outing" now being presented by this newspaper, as explained elsewhere in these columns.

To raise a figure in a design for French stemming cover the surface of the figure with padding stitches inside of the stamped outlines with rows of chain stitches. The dots are in French knots, and everyone knows how lovely this work. It must be borne in mind that the knots should be uniform, that is, a given number of wrappings must be allowed for each knot. Too much importance cannot be placed on this point. The top of the shade has a pretty curved scallop which is done in the padded buttonhole stitch. The lower edge is finished with Chain lace 1/4 inch wide, or, if preferred, a heavy silk fringe, if narrow, will greatly add to its originality and beauty.

United Presbyterian Church.

Sabbath school 9:45. Preaching 11 a. m. and 1:30 p. m. Y. P. C. U. 6:50 p. m. Mid-week prayer meeting Wednesday 7:30. A gospel welcome to all.

F. G. WRIGHT, Pastor.

First Church of Christ, Scientist.

116 N. Broad Street. Sunday School 9:45 a. m. Sunday services 11:00 a. m. Wednesday evening service 8:00 p. m.

Reading room in rear of church, open from two to five in the afternoon except Sundays and holidays.
